CASE MANAGEMENT

Feel supported on your medical journey.

Our Case Management service enables you to receive personalised support and assistance from our dedicated nurses and doctors when you are diagnosed with a complex condition requiring special support.

WHAT HAPPENED?

A customer had been diagnosed with a brain tumour with a complex and lengthy treatment plan.

WHAT DID WE DO?

The customer and their family were supported during the whole treatment by a Clinical Case Manager. Their Case Manager acted as a single point of contact in Cigna, helping them to understand and navigate through the whole journey, facilitating access to care and coordinating with all parties to make the process safer, simpler and smoother.

WHAT WAS THE OUTCOME?

This help and support from the Cigna case manager provided the family with the peace of mind and reassurance that allowed them to focus on the recovery of their family member.

CHRONIC CONDITION PROGRAMME

A helping hand to manage your condition.

Our Chronic Condition programme offers you support if you are suffering from a chronic condition, to help you better understand, manage and improve your condition. You will have access to this programme even if the condition is a special exclusion as detailed on your Certificate of Insurance.

WHAT HAPPENED?

A customer had been strongly advised to lose weight and reduce her/his cholesterol after a cardiovascular event, but he had no clear guidance on how to achieve this.

WHAT DID WE DO?

Through regular calls with his assigned case manager we managed through education to help him/her reduce weight and cholesterol, and maintain a healthy and balanced diet, setting realistic goals while we also helped him/her to control his core disease and assist in the long term follow-up.

WHAT WAS THE OUTCOME?

The goals set in place for the customer helped not only to achieve the goals but to win the knowledge to be in control of his/her health with improved overall management of his cardiac condition.

WHAT HAPPENED?

A customer was feeling heart palpitations and wasn't comfortable attending the local hospital which didn't have any English-speaking doctors. She used her Cigna Wellbeing™ App to schedule a video consultation later in the day.

WHAT DID WE DO?

The doctor spent time listening to the customer, discussing her symptoms, medical history, drug allergies and details of other prescribed medicines. The doctor put the customer at ease and alleviated her concerns.

WHAT WAS THE OUTCOME?

The customer felt reassured and more informed about her condition. The advice she received enabled her to book the adequate follow-up tests and get the help she needed.

DECISION SUPPORT PROGRAMME

Feel reassured thanks to second medical opinions.

Our Decision Support programme gives you access to global medical experts for advice and recommendations on your individual diagnosis and treatment plan.

WHAT HAPPENED?

A customer residing in central Europe was diagnosed with a severe cardiac condition requiring complex heart surgery. He raised concerns to us about his treatment options.

OUR GLOBAL EXPERTISE

We understand the challenges you might face when you are relocating or traveling abroad and we are dedicated to ensuring your peace of mind. Our flexible plans have been designed with the option to add the International Evacuation & Crisis Assistance Plus™ module.

INTERNATIONAL EVACUATION & CRISIS ASSISTANCE PLUS™

Peace of mind wherever you are

The medical evacuation service is designed for emergency medical situations. In the event treatment is not available locally in an emergency, the service provides coverage for reasonable transportation costs to the nearest centre of medical excellence. This option also includes medical repatriation coverage as a result of a serious illness or after a traumatic event or surgery, and compassionate visits for immediate family members.

WHAT HAPPENED?

While living abroad in South America, a customer was diagnosed with congestive heart failure and admitted to hospital. The family expressed that they had concerns on the overall care plan suggested by the local hospital, which included transplant surgery.

WHAT DID WE DO?

The case was assigned a Case Manager that stayed in continuous contact with their family. We arranged repatriation in order for the customer to receive care in a more familiar environment. On reassessment, doctors confirmed that transplant was not necessary.

WHAT WAS THE OUTCOME?

The customer is now recovering at home with follow-up appointments and medication. The Case Manager is in regular contact to track progress for the duration of the treatment plan.

Feel secure when you travel

Our Crisis Assistance Plus™ programme is a worldwide comprehensive crisis assistance service in the event of a travel or security risk that may occur while you and your family are travelling globally. This service is provided by FocusPoint International®.

WHAT HAPPENED?

As a result of a series of coordinated terrorist attacks in Paris, a group were denied departure due to the airspace being temporarily shut down. They couldn't reach their employer and called our Crisis Assistance Plus™ provider FocusPoint International®.

WHAT DID WE DO?

A Crisis Consultant was dispatched to the airport and briefed the members on the incident. He organised secure transportation to a locally vetted hotel, secured and paid for lodging and booked commercial flights back to California.

WHAT WAS THE OUTCOME?

The group were securely transported back to Charles de Gaulle 2 days later for their flights back to California.

IMPORTANT NOTE: The case studies referenced above are based on real life events, however, personal information has been removed and/or amended to protect the identity of our customers. The Crisis Assistance Plus™ example is provided by our service provider FocusPoint International® and is not a Cigna customer case study.

OUR GLOBAL EXPERTISE

We understand the importance of your overall wellbeing and living a balanced life. Our flexible plans have been designed with the option for you to add the International Health & Wellbeing module.

INTERNATIONAL HEALTH & WELLBEING

Find balanced living and total wellbeing

In addition to preventative health screenings, tests, and examinations, the International Health & Wellbeing optional module also empowers you and your family with the services and support to manage your own individual day-to-day health and wellbeing thanks to the Life Management Assistance programme.

The programme includes a short-term counselling service that can provide you with confidential assistance with any work, life, personal or family issue that matters to you at a time that is suitable for you.

WHAT HAPPENED?

A customer recently moved to the UK and did not speak English well and this caused self-esteem and anxiety issues.

WHAT DID WE DO?

Our chosen partner was able to call the customer in her native language so she could explain her issues without being concerned about a language barrier. They were then able to organise appropriate individual face-to-face counselling sessions to address her issues.

WHAT WAS THE OUTCOME?

The counselling sessions taught the customer effective coping strategies to help with her stress and anxiety levels which she started implementing into her daily life.

The programme includes an information service that can provide support and resources to assist with your day-to-day demands such as childcare arrangements or relocation logistics.

WHAT HAPPENED?

A customer with irregular working hours was concerned about finding suitable childcare for her newborn.

WHAT DID WE DO?

Our chosen partner was able to research different options and hours of nearby childcare centres. They mapped out a childcare schedule that involved part time day-care centre and in-home care.

WHAT WAS THE OUTCOME?

This allowed the customer to secure professional care in her new location without incurring unnecessary costs.

YOUR DEDUCTIBLE AND COST SHARE OPTIONS

Our wide range of deductible and cost share options allow you to tailor your plan to suit your needs. You can choose to have a deductible and/or a cost share on the International Medical Insurance plan or International Outpatient module. If you do so, your premium will be lower than it otherwise would be.

If you have selected a deductible and/or cost share, the examples below demonstrate how it works.

Example 1: DEDUCTIBLE

Claim value: \$1,200
Deductible: \$375

Once the deductible amount has been reached, we pay for all subsequent treatment costs for this period of cover.

Example 2: COST SHARE

Claim value: \$5,000
Deductible: \$0
Cost share: 20% = \$1,000
Out of Pocket Maximum: \$2,000

The amount of cost share is subject to the capping effect of the out of pocket maximum.

Example 3: COST SHARE AND OUT OF POCKET MAXIMUM

Claim value: \$20,000
Deductible: \$0
Cost Share: 20% = \$4,000
Out of Pocket Maximum: \$2,000

The out of pocket maximum protects you from large cost share amounts.

Example 4: DEDUCTIBLE AND COST SHARE

Claim value: \$20,000
Deductible: \$375
Cost Share: 20% = \$3,925
Out of Pocket Maximum: \$5,000

The deductible is due before the cost share is calculated.
