OUR WHOLE HEALTH SERVICES

We are dedicated to helping you and your family live happier, healthier lives thanks to our clinical expertise. All of our Cigna Close CareSM customers have access to our Clinical Case Management programme which includes the following four services:

CASE MANAGEMENT

Feel supported on your medical journey.

Our Case Management service enables you to receive personalised support and assistance from our dedicated nurses and doctors when you are diagnosed with a complex condition requiring special support.

WHAT HAPPENED?

A customer had been diagnosed with a brain tumour with a complex and lengthy treatment plan.

WHAT DID WE DO?

The customer and their family were supported during the whole treatment by a Clinical Case Manager. Their Case Manager acted as a single point of contact in Cigna, helping them to understand and navigate through the whole journey, facilitating access to care and coordinating with all parties to make the process safer, simpler and smoother.

WHAT WAS THE OUTCOME?

This help and support from the Cigna case manager provided the family with the peace of mind and reassurance that allowed them to focus on the recovery of their family member.

CHRONIC CONDITION PROGRAMME

A helping hand to manage your condition.

Our Chronic Condition programme offers you support if you are suffering from a chronic condition, to help you better understand, manage and improve your condition. You will have access to this programme even if the condition is a special exclusion as detailed on your Certificate of Insurance.

WHAT HAPPENED?

A customer had been strongly advised to lose weight and reduce his cholesterol after a cardiovascular event, but he had no clear guidance on how to achieve this.

WHAT DID WE DO?

Through regular calls with his assigned case manager we managed through education to help him reduce weight and cholesterol, and maintain a healthy and balanced diet, setting realistic goals while we also helped him to control his core disease and assist in the long term follow-up.

WHAT WAS THE OUTCOME?

The goals set in place for the customer helped not only to achieve the goals but to win the knowledge to be in control of his health with improved overall management of his cardiac condition.

IMPORTANT NOTE: The case studies referenced above are based on real life events, however, personal information has been removed and/or amended to protect the identity of our customers.

OUR WHOLE HEALTH SERVICES

As part of our Clinical Case Management programme, you have access to doctors worldwide for initial consultations via telephone or video, or to provide you with expert second medical opinions.

GLOBAL TELEHEALTH

Doctor consultations, anytime, anywhere.

Our Global Telehealth service gives you access to licensed doctors around the world for non-emergency health issues. We can arrange a callback appointment for you often on the same day, or you can arrange a telephone or video consultation from the Cigna Wellbeing™ app.

WHAT HAPPENED?

A customer was feeling heart palpitations and wasn't comfortable attending the local hospital which didn't have any English-speaking doctors. She used her Cigna Wellbeing™ App to schedule a video consultation later in the day and she was able to upload a file with her previous doctor notes.

WHAT DID WE DO?

The doctor spent time listening to the customer, discussing her symptoms, medical history, drug allergies and details of other prescribed medicines. The doctor put the customer at ease and alleviated her concerns.

WHAT WAS THE OUTCOME?

The customer felt reassured and more informed about her condition. The advice she received enabled her to book the adequate follow-up tests and get the help she needed.

DECISION SUPPORT PROGRAMME

Feel reassured thanks to second medical opinions.

Our Decision Support programme gives you access to global medical experts for advice and recommendations on your individual diagnosis and treatment plan.

WHAT HAPPENED?

A customer residing in central Europe was diagnosed with a severe cardiac condition requiring complex heart surgery. He raised concerns to us about his treatment options.

WHAT DID WE DO?

Through our Decision Support programme, the customer received advice from international cardiologists to book follow-up tests prior to undertaking surgery. We helped him organise the tests and the medical experts were able to confirm that surgery was the right course of action.

WHAT WAS THE OUTCOME?

We arranged an appointment with one of the best cardiac surgeons in his location to carry out the required surgery. The customer felt reassured knowing this was the right option for them.

WHAT HAPPENED?

A customer recently moved to the UK and did not speak English well and this caused self-esteem and anxiety issues.

WHAT DID WE DO?

Our chosen partner was able to call the customer in her native language so she could explain her issues without being concerned about a language barrier. They were then able to organise appropriate individual face-to-face counselling sessions to address her issues.

WHAT WAS THE OUTCOME?

The counselling sessions taught the customer effective coping strategies to help with her stress and anxiety levels which she started implementing into her daily life.

WELLNESS COACHING

WHAT HAPPENED?

Participant enrolled in wellness coaching because they were interested in reducing their blood sugar.

WHAT DID WE DO?

The wellness coach worked alongside the participant to build a sustainable healthy eating plan, focused on dietary changes to reduce their blood sugar levels. Between each session, the participant implemented small changes related to their goals of healthy eating and increased exercise for improved blood sugar control.

WHAT WAS THE OUTCOME?

By the end of the 6 sessions, the participant increased their knowledge about how to control their blood sugar and felt improved confidence in managing their health.

PRACTICAL NEEDS

WHAT HAPPENED?

A customer with irregular working hours was concerned about finding suitable childcare for her newborn.

WHAT DID WE DO?

Our chosen partner was able to research different options and hours of nearby childcare centres. They mapped out a childcare schedule that involved part time day-care centre and in-home care.

WHAT WAS THE OUTCOME?

This allowed the customer to secure professional care in her new location without incurring unnecessary costs.
