CASE MANAGEMENT

WHAT HAPPENED?

A customer had been diagnosed with a brain tumour with a complex and lengthy treatment plan.

WHAT DID WE DO?

The customer and their family were supported during the whole treatment by a Clinical Case Manager. Their Case Manager acted as a single point of contact in Cigna, helping them to understand and navigate through the whole journey, facilitating access to care and coordinating with all parties to make the process safer, simpler and smoother.

WHAT WAS THE OUTCOME?

This help and support from the Cigna case manager provided the family with the peace of mind and reassurance that allowed them to focus on the recovery of their family member.

CHRONIC CONDITION

WHAT HAPPENED?

A customer had been strongly advised to lose weight and reduce his cholesterol after a cardiovascular event, but he had no clear guidance on how to achieve this.

WHAT DID WE DO?

Through regular calls with his assigned case manager we managed through education to help him reduce weight and cholesterol, and maintain a healthy and balanced diet, setting realistic goals while we also helped him to control his core disease and assist in the long term follow-up.

WHAT WAS THE OUTCOME?

The goals set in place for the customer helped not only to achieve the goals but to win the knowledge to be in control of his health with improved overall management of his cardiac condition.

GLOBAL TELEHEALTH

WHAT HAPPENED?

A customer was feeling heart palpitations and wasn't comfortable attending the local hospital which didn't have any English-speaking doctors. She used her Cigna Wellbeing™ App to schedule a video consultation later in the day and she was able to upload a file with her previous doctor notes.

WHAT DID WE DO?

The doctor spent time listening to the customer, discussing her symptoms, medical history, drug allergies and details of other prescribed medicines. The doctor put the customer at ease and alleviated her concerns.

WHAT WAS THE OUTCOME?

The customer felt reassured and more informed about her condition. The advice she received enabled her to book the adequate follow-up tests and get the help she needed.

WELLNESS COACHING

WHAT HAPPENED?

Participant enrolled in wellness coaching because they were interested in reducing their blood sugar.

The wellness coach worked alongside the participant to build a sustainable healthy eating plan, focused on dietary changes to reduce their blood sugar levels. Between each session, the participant implemented small changes related to their goals of healthy eating and increased exercise for improved blood sugar control.

WHAT WAS THE OUTCOME?

By the end of the 6 sessions, the participant increased their knowledge about how to control their blood sugar and felt improved confidence in managing their health.

PRACTICAL NEEDS

WHAT HAPPENED?

A customer with irregular working hours was concerned about finding suitable childcare for her newborn.

WHAT DID WE DO?

Peace of mind wherever you are

The medical evacuation service is designed for emergency medical situations. In the event treatment is not available locally in an emergency, the service provides coverage for reasonable transportation costs to the nearest centre of medical excellence. This option also includes medical repatriation coverage as a result of a serious illness or after a traumatic event or surgery, and compassionate visits for immediate family members.

WHAT HAPPENED?

While living abroad in South America, a customer was diagnosed with congestive heart failure and admitted to hospital. The family expressed that they had concerns on the overall care plan suggested by the local hospital, which included transplant surgery.

WHAT WAS THE OUTCOME?

The customer is now recovering at home with follow-up appointments and medication. The Case Manager is in regular contact to track progress for the duration of the treatment plan.

YOUR DEDUCTIBLE AND COST SHARE OPTIONS

Our wide range of deductible and cost share options allow you to tailor your plan to suit your needs. You can choose to have a deductible and/or a cost share on the International Medical Insurance plan or International Outpatient module. If you do so, your premium will be lower than it otherwise would be.

	Deductible			Cost Share	Out of Pocket Maximum		
	This is the amount you must pay towards your cost of treatment until the deductible for the period of cover is reached.			This is the cost share percentage you must pay toward your cost of treatment.	This is the maximum amount of cost share you have to pay per period of cover.		
INTERNATIONAL MEDICAL INSURANCE	\$0	€0	£0				
	\$375	€275	£250				
	\$750	€550	£500	0%	\$2,000	€1,480	£1,330
	\$1,500	€1,100	£1,000	10%			
	\$3,000	€2,200	£2,000	20%	\$5,000	€3,700	£3,325
	\$7,500	€5,500	£5,000	30%			
	\$10,000	€7,400	£6,650				
INTERNATIONAL OUTPATIENT	\$0	€0	£0				
	\$150	€110	£100	0%			
	\$500	€370	£335	10%	\$3,000	€2,200	£2,000
	\$1,000	€700	£600	20%			
	\$1,500	€1,100	£1,000	30%			

If you have selected a deductible and/or cost share, the examples below demonstrate how it works.

Example 1: DEDUCTIBLE

Claim value: \$1,200
Deductible: \$375

Once the deductible amount has been reached, we pay for all subsequent treatment costs for this period of cover.

Example 2: COST SHARE

Claim value: \$5,000
Deductible: \$0
Cost share: 20% = \$1,000
Out of Pocket Maximum: \$2,000

The amount of cost share is subject to the capping effect of the out of pocket maximum.

Example 3: COST SHARE AND OUT OF POCKET MAXIMUM

Claim value: \$20,000
Deductible: \$0
Cost Share: 20% = \$4,000
Out of Pocket Maximum: \$2,000

The out of pocket maximum protects you from large cost share amounts.

Example 4: DEDUCTIBLE AND COST SHARE

Claim value: \$20,000
Deductible: \$375
Cost Share: 20% = \$3,925
Out of Pocket Maximum: \$5,000

The deductible is due before the cost share is calculated.
